SUMMARY

Senior DevOps engineer with 5.8 years of experience building and operating cloud-native platforms on AWS and Kubernetes. Designed a production Kubernetes platform supporting 10,000 users, led the migration of 40 microservices to Amazon EKS and reduced cloud costs by 40%. Lead a team of 3 engineers and care about reliability, automation and developer experience.

EXPERIENCE

Senior DevOps Engineer — Bluepeak Analytics, Austin, TX

Jan 2023 – Present

- Designed production Kubernetes platform supporting 10,000 users on Amazon EKS (3 clusters, about 120 nodes).
- Led migration of 40 microservices from EC2 and ECS to EKS over nine months with no customer-facing downtime.
- Reduced cloud costs by 40% through rightsizing, Karpenter-managed spot capacity and storage lifecycle policies.
- Lead a team of 3 DevOps engineers: sprint planning, code reviews, on-call rotation and onboarding.
- Introduced GitOps with Argo CD and progressive delivery with Argo Rollouts; deployment lead time fell from 2 days to 45 minutes.
- Built observability with Prometheus, Grafana, Loki and OpenTelemetry; defined SLOs for 12 customer-facing services.

DevOps Engineer — Harborline Logistics, Remote

Aug 2021 – Mar 2023

- Managed AWS infrastructure across 4 accounts with Terraform (60+ modules) and Terragrunt.
- Built GitHub Actions CI/CD pipelines for 25 services and cut average build time by 55%.
- Served in the on-call rotation; led 14 incident postmortems and introduced a blameless postmortem template.
- Containerised legacy Java services and standardised deployments with Helm charts.

Junior Systems Engineer — Cobalt Retail Group, Dallas, TX

Jan 2021 – Jul 2021

- Automated provisioning of a 200-VM Linux fleet with Ansible.
- Wrote Python tooling for log rotation checks and nightly backup verification.

PROJECTS

- **Internal developer platform**: Self-service namespaces and golden-path service templates in Backstage, adopted by 8 product teams.

SKILLS

Cloud & IaC: AWS (EKS, EC2, VPC, IAM, RDS, CloudFront, Organizations), Terraform, Terragrunt, Ansible
Containers: Kubernetes, Helm, Karpenter, Argo CD, Argo Rollouts, Docker
CI/CD: GitHub Actions, GitLab CI, Jenkins
Observability: Prometheus, Grafana, Loki, OpenTelemetry, PagerDuty
Languages: Python, Go, Bash
Data stores: PostgreSQL, Redis

CERTIFICATIONS

- AWS Certified Solutions Architect – Associate (2022)
- Certified Kubernetes Administrator (CKA) (2023)

EDUCATION

B.S. Computer Science, Lakeview State University
